Fun Facts

- **Dennis Walling** and **Matthew Taylor** both **crossed 100,000 career points** in this league this season:
 - Dennis earned his 100,000th point in Week 12, game 3, frame 10, roll 2 and now sits at 102,120 career points.
 - Matthew earned his 100,000th point in Week 13, game 1, frame 2, roll 1 and now sits at 102,267 career points.
- **Kent Harms** has climbed up to become the **17th best bowler in league history to never win a championship** -- or third best among current-era bowlers. (James Tott and Dustin Schmeltz both slightly edge him.)
- This season **Seth Gunderson** passed Freda Schroeder to have the **5th highest number of games rolled in league history**: 1,418. (Ahead of him still are 3 more retired bowlers and Scoot. Once Scoot kicks the bucket Seth will still have to roll 12 more seasons to achieve #1.)
- In week 2 of this season, **Chris Windham** earned his **100th win**. at the end of his 152nd game. This makes Chris tied with Nick Kinney for 5th place among all league bowlers in history to reach their 100th win the quickest.
- **Ben Spencer** has made his way onto the list of the **Top 25 Bowlers with the Most 200+ games**, debuting at #24 on the list with 75 200+ games.
- Speaking of 200+ games rolled, we had 72 this season. That's a big improvement over last Fall where we only had 56 with essentially the same teams.
- In week 12, game 3 between **It Starts Now!** and **Squid Row** was the **7th highest-scoring game in league history to be decided by a single pin**, with Starts beating Squids 739-738.
- And of course we all already know what happened in week 14: **Brett Affolter** plunged from 223 to 91 (132 points) from game 1 to game 2. This is the **5th largest change in score** between games and the **3rd biggest drop** in league history.
